

RULE UPDATES AS OF 4/2/24

ENGINES

-You may run after market valve springs but they must be the same spring pressures as OEM. Per the GM Yellow Book, OEM Valve springs are rated at 80# (+/-4#) @ 1.70" installed height and 195# (+/-8#) @ 1.270" open height. OEM dimension retainers and keepers.

IGNITION

Cars must run a maximum 6,200 RPM rev limit. It is mandatory to use the FAST/Crane Ignition System part # 6000-6701 or the JMS/Daytona Sensors part # 6000-6701K as produced on original plate mounted on passenger side with dials pointed to right side of car. The Quick Car #50-2053 or the Nelson Specialties Spec wiring harness (unaltered) is mandatory.

TIRES and WHEELS

E. No tire bleeders allowed.

BODY and CHASSIS –

Quarter panel heights and tread width will be checked with driver in the car.

RACE PROCEDURES

The Race Director, at the drivers' meeting, shall announce the number of consecutive green flag laps to be completed prior to a competition caution. This number of consecutive laps may vary with each Event. If the race goes said amount of consecutive green flag laps without a natural occurring caution, a competition caution will occur. The only time this will not occur is if the "said consecutive green flag lap" falls inside fifteen (15) laps to go of the total race distance.
